

◆ Hardware / Components

1. **Flash memory** — keeps data.
2. **Printed circuit board** — component board.
3. **Graphics card** — creates images.
4. **Expansion card** — adds functions.
5. **Display device** — shows images.
6. **Output image** — produced image.
7. **Slot** — insertion place.
8. **Moving part** — part that moves.
9. **Optical disk** — light-read disk.
10. **Built-in** — inside device.
11. **Memory card** — storage card.
12. **Memory card reader** — reads cards.
13. **Hardware device** — physical part.
14. **Video display** — shows video.
15. **Pointing device** — moves pointer.
16. **Optical sensor** — light sensor.
17. **Subwoofer** — bass speaker.
18. **Data cable** — data wire.
19. **USB port** — USB hole.
20. **HDMI port** — video/audio port.
21. **Push button** — pressable button.
22. **Mechanical switch** — physical switch.
23. **Transmitter** — sends signals.
24. **Jack plug** — audio plug.
25. **Punch card** — data card.
26. **Paper tape** — data tape.
27. **Mouse pad** — mouse surface.

- 28. **Trackball** — roll ball.
 - 29. **Stylus** — touchscreen pen.
 - 30. **Palmtop** — tiny computer.
 - 31. **Casing** — device cover.
-

◆ **Software / Actions**

- 32. **To house** — contain inside.
- 33. **To operate (intr.)** — work.
- 34. **To operate (trans.)** — use device.
- 35. **To enable** — allow.
- 36. **To process** — handle data.
- 37. **To power off** — turn off.
- 38. **To power up** — turn on.
- 39. **To access** — reach/use.
- 40. **To read data** — get data.
- 41. **To press** — push button.
- 42. **Left-click** — left button.
- 43. **To left-click** — click left.
- 44. **Right-click** — right button.
- 45. **To right-click** — click right.
- 46. **Scroll wheel** — scrolling wheel.
- 47. **To edit** — change.
- 48. **To slot into (trans.)** — insert.
- 49. **To slot into (intr.)** — fit in.
- 50. **To digitize** — make digital.
- 51. **To stream** — play online.
- 52. **To live-stream** — broadcast live.
- 53. **Point and click** — aim + click.

54. **To display** — show.
55. **Communicate over the Internet** — talk online.
56. **To facilitate** — make easier.
-

◆ **Memory / Storage**

57. **Working memory** — short memory.
58. **Storage device** — data keeper.
59. **Volatile memory** — loses data.
60. **Non-volatile memory** — keeps data.
61. **Hard copy** — paper copy.
62. **Inkjet printer** — ink printer.
63. **Laser printer** — laser printer.
-

◆ **Electricity / Electronics**

64. **Clock speed** — processor speed.
65. **Alternating current** — changing current.
66. **Outlet** — wall socket.
67. **Direct current** — one-way current.
68. **Overheating issues** — heat problems.
69. **The mains** — main power.
70. **Optical technology** — light tech.
71. **Audio stream** — online sound.
72. **Sound output** — produced sound.
73. **Voice output** — spoken sound.
-

◆ **Internet / Digital**

74. **The Internet** — global network.
75. **Browser** — web program.

76. **Modern-day** — current.

◆ **Screen / Visual**

77. **Screen settings** — screen options.

78. **Display resolution** — image sharpness.

79. **Flat-screen** — thin screen.

80. **Still image** — non-moving image.

81. **Mobile image** — moving image.

82. **Touch-sensitive** — reacts to touch.

◆ **Other**

83. **Brand** — product name.

84. **Add-on** — extra part.

85. **Computer-assisted** — computer-helped.

86. **To be built into** — included inside.
